

## Welcome to 2022!

Although 2021 continued to be trying in the face of COVID-19, there is much excitement in the air at The Village of Glendale Crossing!

The construction of the retirement phase of the Village has stimulated a lot of questions from our long-term care residents, their families and our team members.

We are all watching the daily progress of the building and that has made the

anticipation of what is to come, a little more bearable.

The community has also taken notice of what is happening on Singleton Avenue and they are eager to learn more and find out when they can move in.

## Construction

Construction on the new building has been underway since September 2020 and the grand opening of the completed Retirement Village is planned for the Spring of 2023. Much still needs to be done but, things are moving along nicely and on schedule!

The pictures included were taken throughout the fall months and show the progress of the building so far.

As mentioned earlier, it is exciting to watch what happens from day to day and see how much gets accomplished by the amazing workers! One of the pictures included was taken from the 8th floor of one of the buildings across Singleton Ave – behind the Loblaws grocery store.

This view gives you an idea of what our residents who choose a suite on the west side of the 8th floor will look at everyday!

## Our Welcome Centre

Since the retirement building is not yet ready for tours, we have opened a temporary Welcome Centre located on Main Street inside the long-term care Village.

It opened on October 12 and since then, more than 100 people have inquired and shown interest in what retirement at Glendale Crossing is all about.

Our Welcome Centre is where you will find me each day, armed with detailed brochures, pictures, videos of other villages, floor plans and an open ear!

With the continued COVID 19 restrictions we are navigating, those wishing to come into the Village to see me must show proof of double vaccination and take a rapid test, confirming a negative result.

If you would prefer that I make a house call, that can work as well. I take a daily rapid test at the Village to confirm it is safe for me to visit you in your home and will bring all the materials needed to give you a clear picture of what life is like at a Schlegel Village. Further to that, we can also meet virtually and I can drop off material for you to review.

### Call me!

To book an in-village tour, home visit or a virtual meeting for yourself or a family member.

## Meet our leadership team

**Cindy Awde**  
General Manager

I joined The Village of Glendale Crossing in December of 2009 as the Director of Food Service and transitioned to the General Manager in 2018.

My home is in a small town just outside of London where I live with my husband and two boys. In my time away from the Village my family and I enjoy camping and relaxing in our back yard.

My favourite part about working at Schlegel Villages is having large events

that involve residents, their families and our team members. We have an amazing team here and take pride in providing the best possible care for our residents.

I am excited for this new adventure of Retirement Living at our Village. Watching the construction keeps me, the team members and our residents intrigued for what is to come.

We can't wait to meet you and show you why you will love our Village!

**Heather Hyland**  
Assistant General Manager

My journey with Schlegel Villages began in 2011 when I became a full-time night PSW with The Village of Aspen Lake in Windsor. I enjoyed building team and resident relationships with the other night owls.

When my husband started a job with Toyota, we moved with our three children to Cambridge. I continued my passion of serving older adults by joining The Village of Arbor Trails in Guelph as a med certified PSW. I then transitioned to a Neighbourhood Coordinator and for the last four years I was the General Manager.

The announcement of Retirement Living coming to Glendale Crossing, pulled at my head and heart strings to move closer to family and friends in Windsor. So we moved just outside of London and are enjoying small-town living and spending time together.

I look forward to supporting an amazing Schlegel team and welcoming residents into their new home here at The Village of Glendale Crossing!

**Carole Metron**  
Director of Lifestyle Options

I have been working with Schlegel Villages since June 2021 and I am speaking honestly when I tell you that it has been nothing short of amazing since day one!

My role as a Director of Lifestyle Options with The Village of Glendale Crossing, is to meet and share information about our Village, what we offer from a community, recreation and care perspective to those who choose to call our Village home. Not only that but I am also what you would call a "health care navigator". I am here to support people in their transition to retirement living.

There are many moving parts on this journey and I understand that a Schlegel Village may not meet everyone's needs but nevertheless, my job is to help anyone who reaches out to me looking for guidance in the search for retirement living options.

It is truly an honour to walk beside people as they work through this life experience.

**Erin Sneldon**  
Director of Recreation

The Village of Glendale Crossing has been my home since 2010. I have served in multiple roles including, Recreation, Administration, Volunteer Coordinator, Neighbourhood Coordinator and recently promoted to Director of Recreation for both long term care and retirement.

I grew up in Ingersoll with my mom, dad, sister, brother and a lot of pets! 10 years ago I moved to London and I reside my boyfriend Eric and my two cats, Taz and Zoey. One of my favourite things to do is spend time outdoors with family and friends. I love to travel and go for mini weekend get aways in our beautiful province!

The Village of Glendale Crossing feels like family to me and this is why I love working here so much. If I can help provide joy and meaningful moments for people, then my day is complete.

I am excited for our Retirement building to open so we have more people to bring together, to make lifelong memories doing what they love to do!

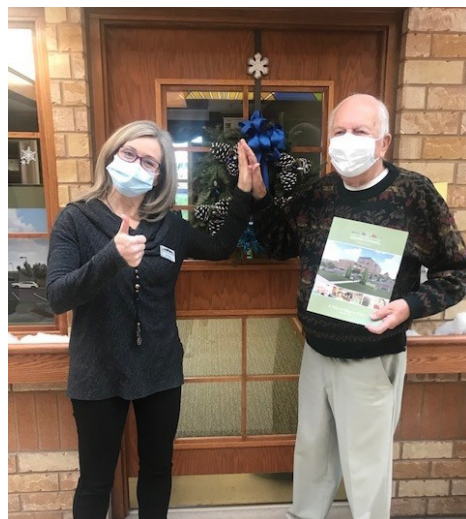

## Model suites

The first of many exciting developments for the retirement Village will be the opening of our model suites in the summer of 2022. These suites will visually reveal to visitors the design and layouts of suites on each of our neighbourhoods.

Currently, we are accepting deposits of \$500 to secure a space on the wait list. When the model suites open, those on the list will have the opportunity to be one of the first to choose their specific suite at the Village.

So far, we have eight happy “residents to be” who have made a deposit for our wait list and are looking forward to when they get to call Glendale Crossing home!

Our very first depositor, Ivan Siriani, knew from the moment ground broke on the new development, that he was going to live here. Ivan’s wife Marge has been a resident in long term care at Glendale since 2019 and he comes to visit her five days a week. Ivan can’t wait for his commute to take only a few minutes to walk from the retirement Village to long term care to see Marge.

## Our neighbourhoods

Our neighbourhoods allow you to choose the lifestyle option that best suits your current care needs. These options range from independent living to assisted care and memory care.

Living in retirement, residents have the choice to age in place, and that means **no more moving!** If or when more care becomes necessary, it is available right there within the Village.

There are five neighbourhoods whose design has been carefully crafted to accommodate the needs of its residents.

### Ailsa Craig – Independent Living

Full kitchen; weekly housekeeping and linen laundry service; in suite washer and dryer; meal plans can be added.

### Becker – Retirement Apartments

Kitchenette - lunch and dinner daily; weekly housekeeping and linen laundry service; in suite washer and dryer; breakfast can be added.

### Williamsburg – Full Service Retirement

Three meals daily; medication administration; daily bed making; weekly housekeeping and linen laundry; weekly assisted bath or shower.

### Egerton – Assisted Living

Three meals daily; medication administration; support with personal care; daily bed making; weekly housekeeping and linen laundry service; weekly assisted bath or shower.

### Emma’s – Memory Care

Safe, secure neighbourhood for residents living with dementia; three meals daily; medication administration; support with personal care; daily bed making; weekly housekeeping and linen laundry service; weekly assisted bath or shower.

**Supplementary care and support can be added to all neighbourhoods.**

## The family

The key to what makes a Schlegel Village unique and special, is the Schlegel family themselves.

To the Schlegels, senior care is a calling. From the early roots planted by Wilfred Schlegel in the small village of Ailsa Craig to the [Schlegel-UW Research Institute for Aging](#) (RIA) – whose foundation was initiated by Wilfred’s son, Ron to help further their goal of improving care for seniors through research and innovation – this family just sees things differently.

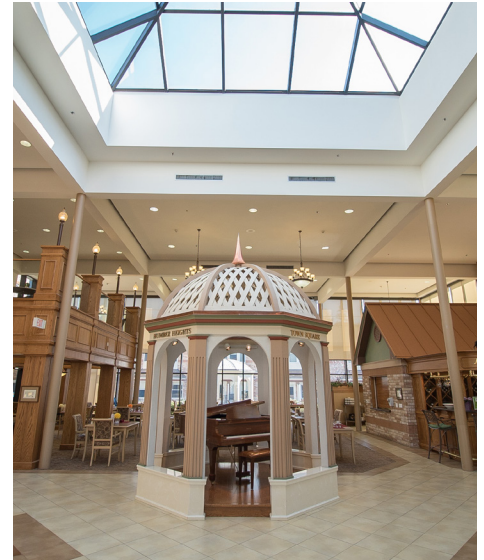

Get to know the family – go to [schlegelvillages.com](#) and watch the video on our homepage.

You will be delighted by what you see and hear.

## Village design

The Hallmark feature of the Schlegel Villages design is the Town Square and Main Street concept, which promotes social interaction and quality of life. Like any Village, this is where the action happens; it’s where residents greet each other throughout the day, where celebrations take place and people gather to discuss the happenings of Village Life.

The Town Hall, the Café and the Community Centre are focal points along Main Street, and the extensive use of windows and skylights flood the street with natural light on even the cloudiest of days. Outside, the residential flavour expands, with patios, sloping rooflines and beautiful landscaping.

There are five neighbourhoods in a Schlegel Retirement Village all offering something a bit different in order to accommodate a full continuum of care.
